

SITE PRESENTATION — 2026

ALIENZ

YOUR ONLINE CLOTHING STORE

Prepared for review · April 2026

01 — OVERVIEW

What we're building

Alienz is a clean, elegant online storefront where customers can browse your collection, save favourites, and place enquiries — with a full admin panel for you to manage everything.

01

Browse & Shop

Visitors can explore your full catalogue, filter by category, and view detailed product pages.

02

Enquiry System

Customers enquire about items directly. You receive their details by email and respond on your terms.

03

Customer Accounts

Registered customers get a personal area with wishlist, order history, and saved address.

04

Admin Panel

Full control over products, categories, enquiries, and customer accounts — from any device.

05

Payment Ready

Built with Stripe in mind. Online payments can be added in a future phase without rebuilding anything.

06

Optimised Images

All product images are automatically compressed and converted to WebP — fast loading on every device.

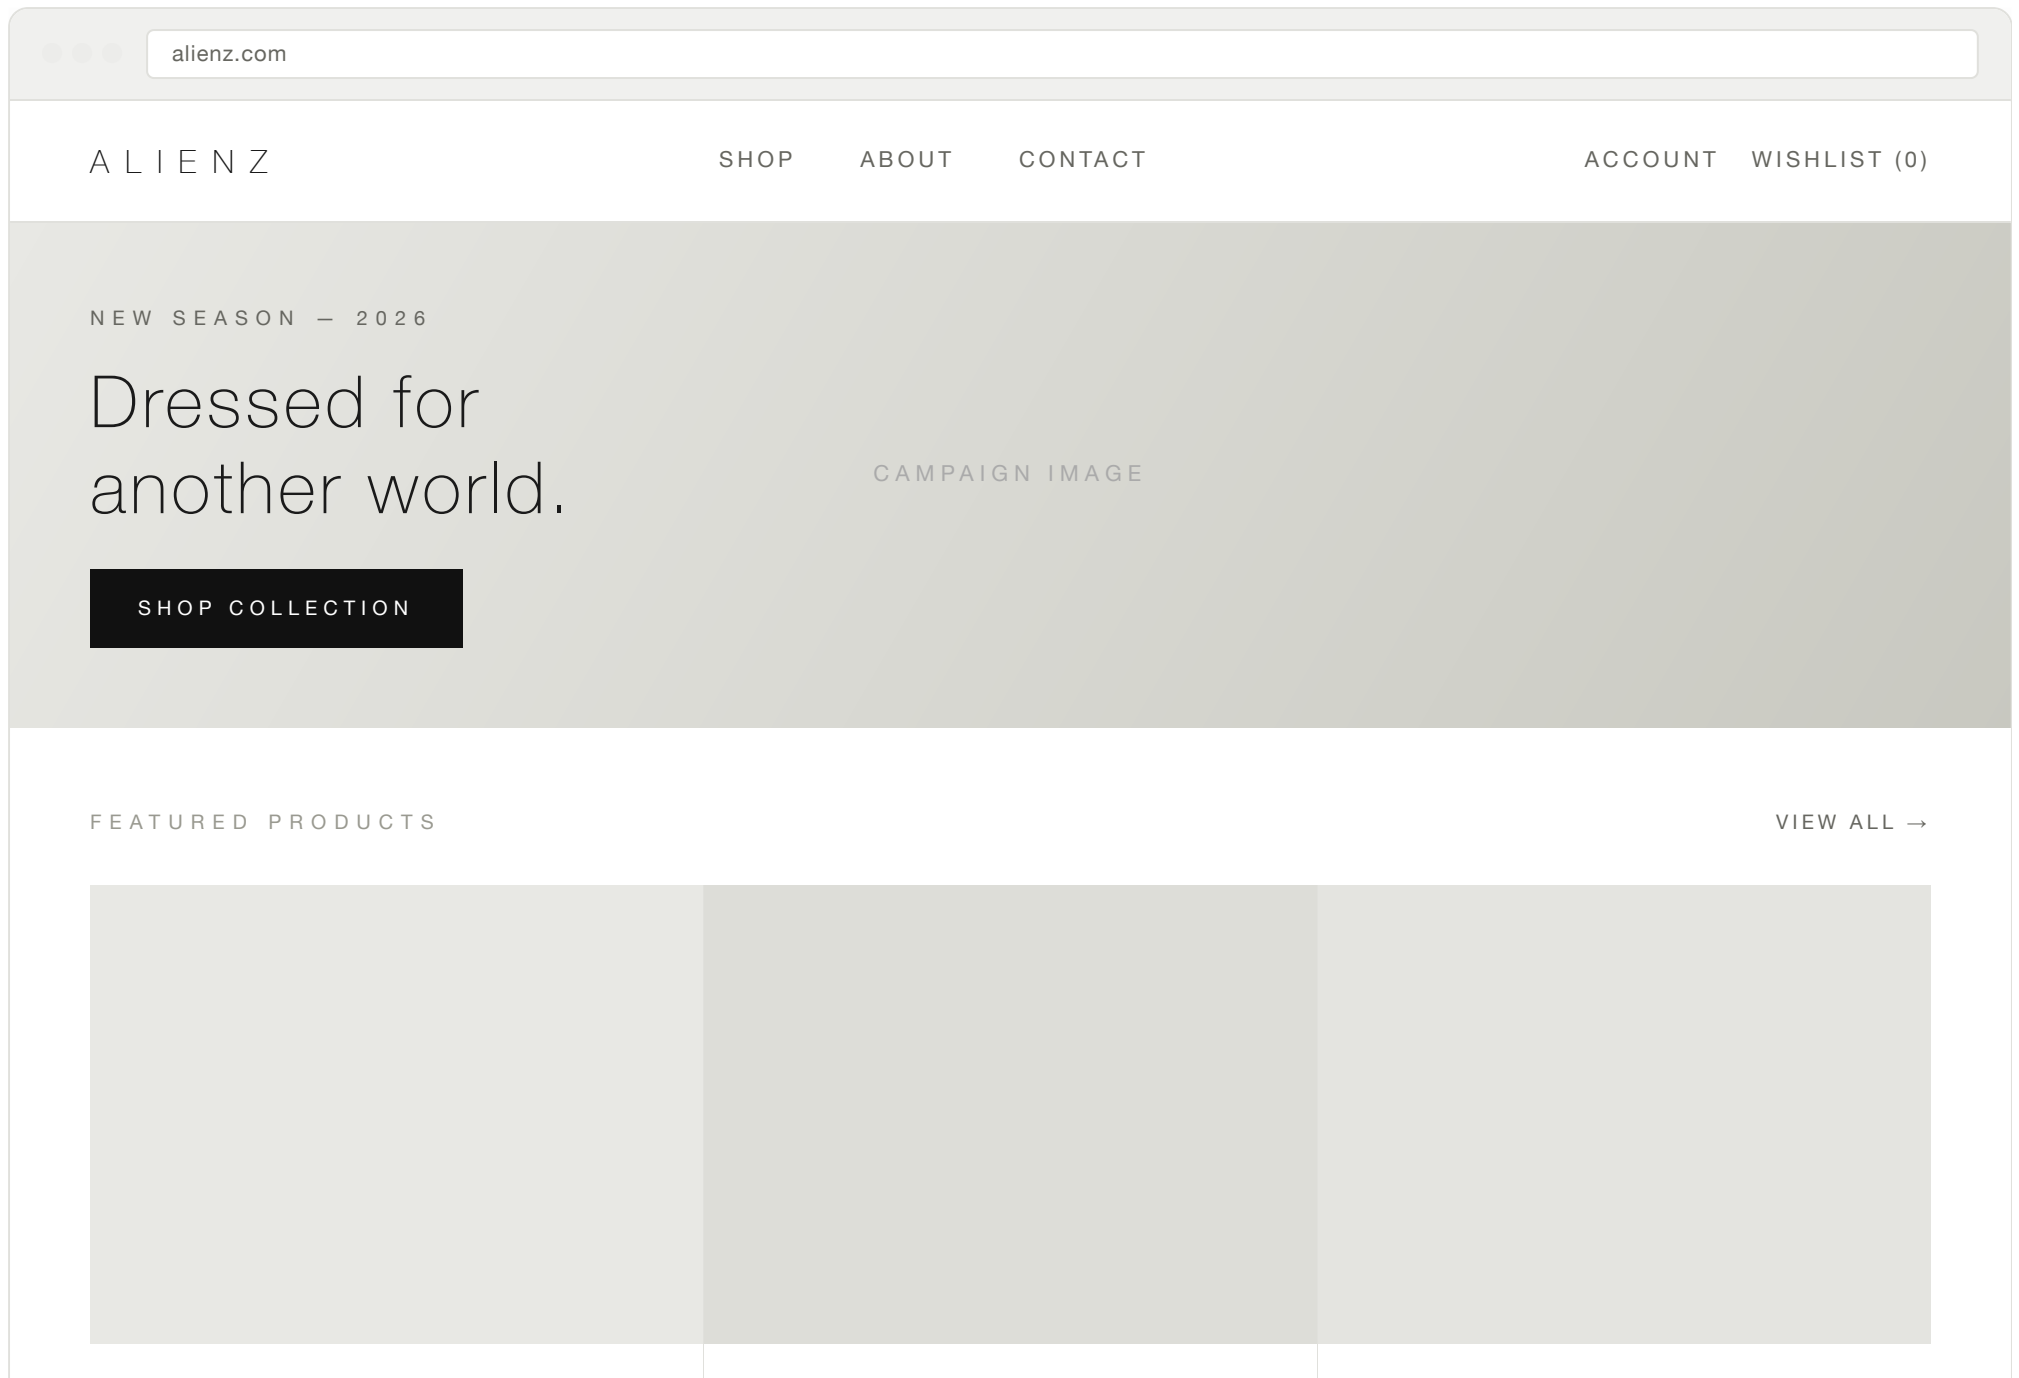

THE PUBLIC SITE

WHAT YOUR CUSTOMERS SEE

02 — HOMEPAGE

First impression

A full-screen hero introduces the brand, followed by featured products and a brief about section. Clean, unhurried, editorial.

Oversized Tee £45.00	Wide Leg Trousers £85.00	Cargo Jacket £120.00
--	--	--

03 — SHOP

Browse the catalogue

Customers can filter by category, browse all products in a clean grid, and navigate between pages. Simple and distraction-free.

CUSTOMER ACCOUNTS

THE PERSONAL AREA

05 — MY ACCOUNT

A personal space for customers

Registered customers get a private area to track enquiries, manage their wishlist, and update their profile and delivery address.

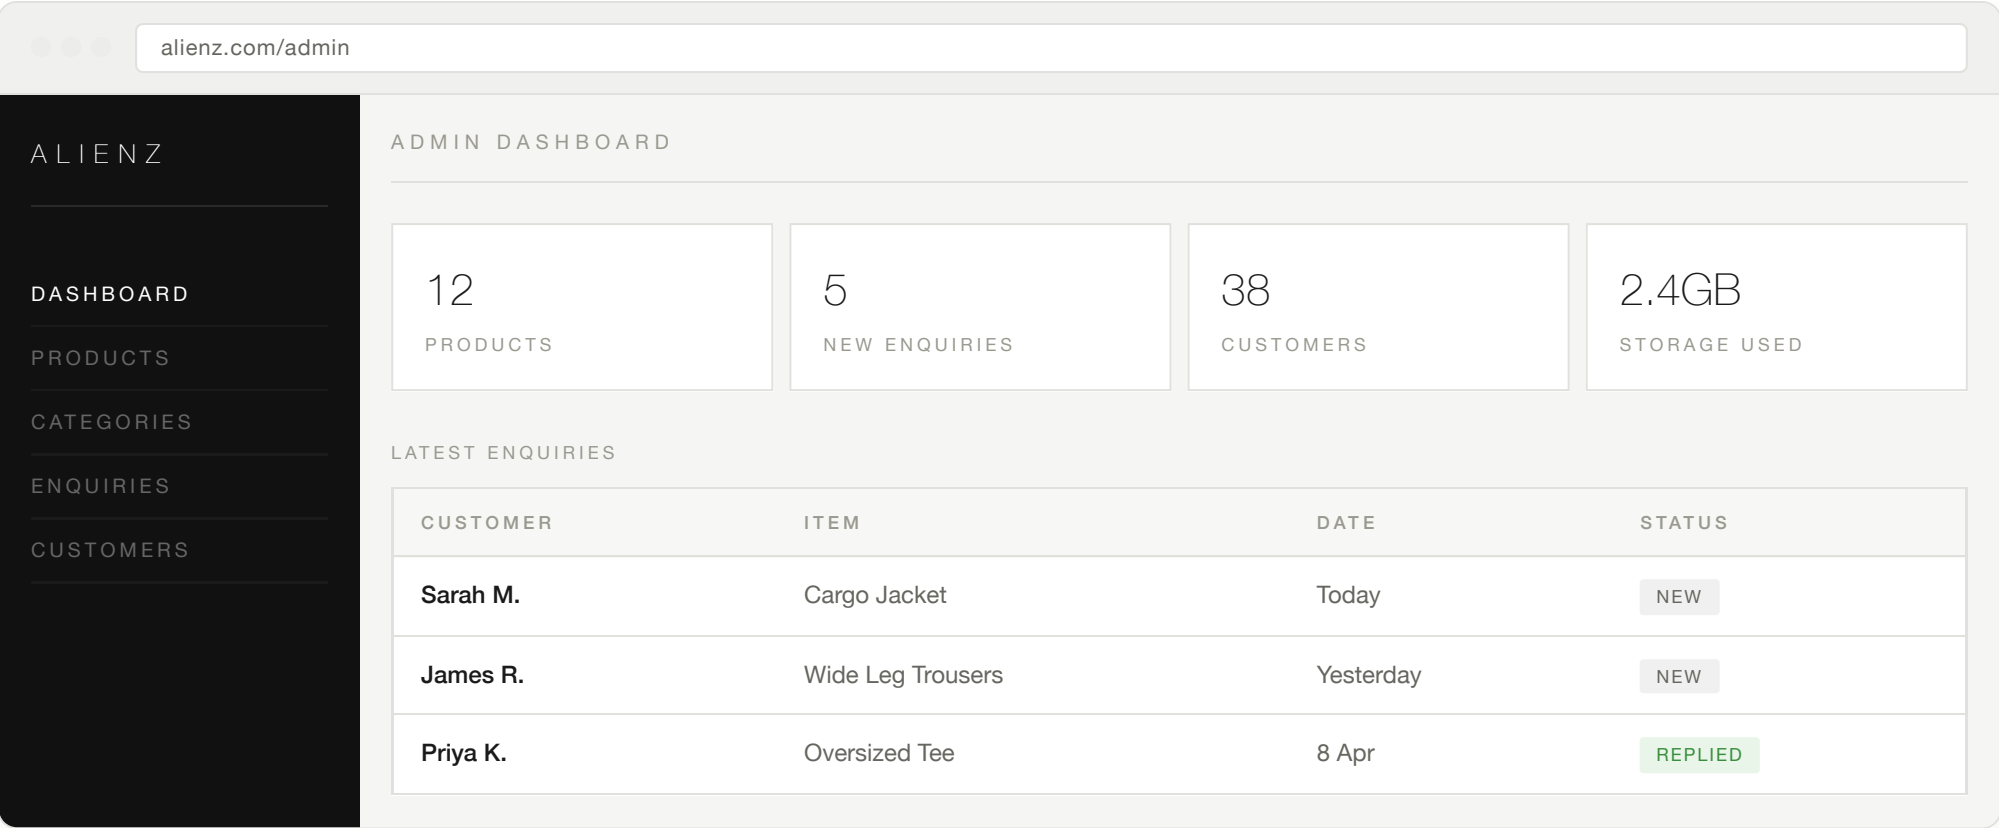

ADMIN PANEL

YOUR CONTROL CENTRE

06 — ADMIN

Full control, simply

A private dashboard for managing your entire store — products, categories, enquiries, and customer accounts — accessible only to you.

07 — ALL PAGES

Complete site map

08 — ROADMAP

What comes next

The site launches with enquiry-based ordering. Online payments are planned for Phase 2 — no rebuild required.

Now Phase 1 — Launch

Full catalogue, customer accounts, wishlist, enquiry system, admin panel. Everything needed to start selling.

Next Phase 2 — Online Payments

Stripe integration for direct checkout. The existing system is built to accommodate this without any major changes.

Later Phase 3 — Growth Features

Discount codes, email marketing integration, analytics dashboard, and more — based on what you need.
